MADE FOR THE WAY YOU WORK

We're inspired by the way you work—and the ways that's changing. The technology you use. The chair you sit in. And the spaces you choose to get it all done. Because the way you work inspires our work. We're dedicated to design and devoted to budget. We believe that well-designed office furniture not only looks great, but makes you feel great, too. That's why everything we build is designed with purpose and motivated by change. Our products are simple, affordable and do exactly what they're meant to—day in and day out—to help you work smarter, work better and work your way.

A photograph of three office workers in a modern workspace. A woman with brown hair, wearing a red and white striped shirt, is seated and looking towards a man on the right. The man is wearing a grey cardigan over a blue shirt and is holding an open brown notebook. Another man, seen from the back, is wearing a dark sweater and glasses. They are sitting at a white desk with a laptop, a black water bottle, and a glass terrarium. In the background, a large framed architectural sketch of a building interior is on the wall. The scene is brightly lit with natural light.

A WORKSPACE
FOR EVERY
WORK STYLE

We know that no two employees are the same. Some prefer to work alone at a desk, while others congregate in cafés and common areas. That's why it's important to understand the art of zoning and how it applies to individual work styles, comfort and productivity.

PRIVACY PLEASE

Personal desks, workstations and private huddle rooms are ideal options for employees who prefer to be left alone to complete an important task or concentrate on their work away from others.

OPEN-DOOR POLICY

Shared worktables and open meeting rooms are great places for employees who want to concentrate and work away from their desks alone or in the company of other co-workers.

COLLABORATION STATION

Comfortable common areas, touchdown tables and cafés provide employees with flexible furniture and spaces to meet, brainstorm and collaborate away from co-workers seeking a little more privacy.

ZONE 2

Relaxing Retreat

A LAYOUT THAT ENHANCES EVERYDAY EXPERIENCES

When, where and how employees prefer to work have changed. People no longer sit at their desks for eight hours a day—instead, they move to various workspaces around the office depending on the projects they're working on and the places they want and need to be throughout the workday.

Basic steps of an absolute value graph
1. $y = |x|$

Steps:
1. Find the vertex of the graph.
2. Determine if the graph is U-shaped or upside down U-shaped.
3. Graph the equation, plot more points as needed to draw accurate graph.

Example: graph $y = |x-5| + 7$
vertex: (5, 7) point of the "U"
Step 1: plot (5, 7)
Step 2: find by adding or subtracting the slope
 $x = 4$ $y = |4-5| + 7 = 8$
 $x = 6$ $y = |6-5| + 7 = 8$
more: find (3, 8) at (7, 8)
 $y = |x-5| + 7$
